Hello Bob.

DEQ has reviewed the RI Proposal for the Siltronic Property and our comments are attached.

<<Lcfnl-NWNG-SiltronicRIProposal.doc>>

A signed hard copy of this letter will be sent to you via regular mail this week.

DEQ's comments to the RI Proposal have been prepared to: 1) clarify our expectations regarding the priorities of the Siltronic Property RI, and identify information and/or data needs not included in the RI Proposal; 2) facilitate NW Natural's preparation of the scope of work for the RI work plan; and 3) provide our understanding and position on certain information items presented in the RI Proposal.

As we've discussed in meetings, to expedite data collection supportive of NW Natural's ongoing source control measures evaluations, DEQ is expecting source control work on the NW Natural and Siltronic properties to be conducted concurrently with the Siltronic Property RI. As such, source control data needs and objectives are also identified in this letter.

Please feel free to contact with questions regarding this e-mail and/or the attachment.
